

YOU GET OUT
WHAT YOU
PUT IN.

BAG-IN-BOX

**SAVE SPACE.
POUR FAST.
WASTE LESS.**

The Kendall solution that saves space, time and money. Its modular design reduces floor and shelf space required to carry multiple specialty products in cases or drums.

- More space on shelves.
- Less time spent on oil changes compared to using quart bottles.
- Less waste disposal – 89% less plastic going to landfill.*
- Lower upfront equipment investment.
- Easy to assemble so you can start pouring right away.
- Bag designed to minimize product loss from residual oil.

*Compared to plastic bottles (800 MM/year)

Bag-In-Box delivers a smarter, sustainable solution to oil packaging. Its sleek design helps your business and the environment. Because over 99% of the product leaves the bag, you'll have less waste, proving that this mighty box goes a long way. Our custom rack includes two easy-to-remove plastic drip trays to keep your shop clean.

Note: Each BIB unit weighs approximately 46 lbs. and each pallet weighs approximately 2,480 lbs. Please calculate your shipping weights carefully when completing orders. Additionally, please exercise proper care when lifting or moving these containers.

Important Stuff

- When ordering Bag-In-Box products, mixed pallets are available but each layer must be the same product number
- Mixed BIB pallets count against the maximum number allowed per order
- Each pallet contains fifty 6-gallon boxes (ten boxes per layer)

LIMITED TIME FREE RACK OFFER

Installers who purchases at least eight Bag-In-Box units will receive one free rack.*

Phillips 66® Lubricants will cover the cost of the rack and the shipping cost. Attention Marketers: Marketers will need to place Bag-In-Box packaged orders through the regular Phillips 66 Lubricants process. Marketers will also need to submit a rack order separately via email or fax to Metaline Products.
